## Extraction Technique and Basic Surgery

### Course Aims & Objectives:

- To discuss the mechanics of atraumatic extraction technique to preserve bone and minimise post operative complications.
- How to use radiographs to plan your extractions.
- How to design, cut, raise, mobilise and close mucoperiosteal flaps, and their applications.
- Hands-on practical utilising theory discussed on pigs' heads

## Tutor(s):

### **Dr Ross Cutts**

*BDS (Lond) Dip Imp Dent RCS (Eng) MClintDent Fixed and Removable Prosthodontics (KCL Lond) with Distinction*  
GDC No.: 78162

Having Graduated from Guy's Hospital, London in 2000, I am a dentist with Special Interests in Implant Dentistry and Advanced Restorative Procedures.

I began my Implant journey in 2003 and have subsequently attended extensive Higher Education across the United Kingdom, Europe and North America from the world leaders in Implant Dentistry.

I have been awarded the highly regarded Diploma in Implant Dentistry from the Royal College of Surgeons, London and have followed this by successfully gaining a Masters in Clinical Dentistry from Kings College London in Fixed and Removable Prosthodontics with distinction. This is my commitment to myself and my patients to ensure I can provide the broadest range of treatments available for maximum patient success.

I am a committed Fellow of the International Team for Implantology (ITI) –a past Study Club Director and Study Club Area Co-Ordinator for the UK and Ireland and remain a clinical mentor for this Worldwide Organisation.

I regularly hold educational courses, lecture nationwide and in Europe on a variety of topics at different educational levels, with a particular interest in Aesthetic Implant Dentistry. As well as educating others I am regularly asked to write up cases for Straumann and Botiss Worldwide Implant companies to demonstrate successful patient outcomes.

I accept referrals from colleagues for a variety of complicated clinical situations at both my Cirencester and Stow-on-the-Wold Dental Practices.

As well as being a fellow of the ITI (one of only 48 in the whole of UK and Ireland), I am also a member of the Association of Dental Implantology (ADI) and the Royal College of Surgeons (RCS). My commitment to Cosmetic / Aesthetic Dentistry maintains my Full Membership of the British Academy of Cosmetic Dentistry (BACD).

### **Dr Gavin Ho Fat**

*BDS (Newcastle)*  
GDC No.: 103457

Gavin qualified from Newcastle university with a clinical distinction in 2006 before moving back to work in London. In 2008, he began his training in dental implantology at Harley Street, and shortly followed with the Diploma for Implant Dentistry at the Royal College of Surgeons in 2012.

Gavin has a very calm and methodical approach with his patients, and works particularly well with nervous patients. When needed, he works very closely with our in-house sedationist, ensuring that any patient can be treated comfortably and at ease.

As well as dental implants and general oral surgery, Gavin has a keen interest and skillset for full mouth rehabilitations and smile make-overs with the use of both composite bonding and ceramics. Despite this, he has a vast experience in all aspects of dentistry and is involved in the practice's post graduate educational program, helping other dentists improve their knowledge and skills in practice.

Gavin has worked at both Stow and Cirencester practices since relocating from London in 2014.
